

Let your voice be heard!

Join a Parent Advisory Forum!

We would like to hear from parents and family members of a child or adolescent (21 years and younger) who is a current Community Care member.

Community Care manages behavioral health care services for people who have Medicaid. We believe that behavioral health recovery is possible and that everyone should have a voice in their treatment.

What is the Parent Advisory Forum?

The forum is an opportunity for parents and family members to express concerns and give suggestions for improvement to the behavioral health treatment system. You will be able to talk with other parents about services that are important to you.

Discussion Topics

We will talk about different types of services for children and adolescents.

Topics that will be discussed:

- BHRS, Outpatient, Family-based
- Community Residential Rehabilitation, Residential Treatment Facility, Inpatient
- Psychiatry, Mobile-Psychiatry, Crisis
- Drug and Alcohol Services

Care managers will be available to answer questions about services and tell you more about their role at Community Care.

Refreshments provided.

The Parent Advisory Forum for **York and Adams Counties** will be held on:

Tuesday, October 16, 2018

6:00–8:00 p.m.

York Learning Center, Room 320
